

# Best™ medical international

Ultrasound Systems, Fiducial Markers...and much more!

The Best™ TargetScan Touch™ is an ultrasound-based stereotactic biopsy guidance and tumor localization system. It provides active surveillance of slow growing tumors, as well as predictive modeling for the treatment planning of more aggressive cancers.

- Point and click interface: ‘Touch’ the needle and instantly image in the other plane
- No need for a digital stepper — connect straight into your treatment planning software!
- Real-time dosimetry version with two monitor mounts for system and laptop
- Smaller footprint for your Brachytherapy needs

## Best™ Gold Fiducial Marker Kit

Best Medical can provide any standard or customized gold marker configuration made to your exact specifications, sterile or non-sterile. We ship your order within 24 hours!
